AI & Data | Digital Transformation | Trilingual: English, French, Arabic | Open to relocation

MSc International Business graduate focused on AI and data, with experience in strategy consulting, account management and sales across international environments. Currently helping Safran adopt AI at scale with Devoteam: prioritizing use cases, building AI agents and agentic workflows, and acting as the team's PMO. Strong in stakeholder management, business analysis and cross-functional collaboration, driven to turn technology into real impact.

EXPERIENCE

Devoteam Digital Impulse | Strategy Consultant in Digital Transformation — Paris, France *Jul – Dec 2026*

- Supported Safran's AI transformation program from design through implementation, aligned with its 2030 business objectives
- Acted as the team's PMO, supporting managers with progress tracking, stakeholder coordination, gap analysis and management reporting
- Owned and executed 60+ activities to prepare the organization for the implementation of its transformation methodology
- Prioritized AI use cases and built AI agents and agentic workflows, applying principles of responsible and ethical data use

SITA Aero | Key Account Manager Assistant — Beirut, Lebanon *May – Aug 2025*

- Supported the Account Manager across 10+ stakeholder meetings and interviews, contributing to client relationship management and stakeholder engagement within the aviation technology ecosystem
- Conducted market and stakeholder analysis across 5 government entities and 12+ airport operators to identify business, innovation, and digital transformation opportunities
- Analyzed airline operational workflows and key efficiency drivers to understand the business and operational challenges addressed by aviation technology and digital solutions
- Collaborated with cross-functional teams across business development, solution engineering, airport operations, cybersecurity, commercial and connectivity functions to understand how solutions are developed, positioned and delivered to airlines and airports

Louis Vuitton, Maison Vendôme | Sales Advisor — Paris, France *May – Aug 2023*

- Managed 400+ end-to-end client experiences in a luxury retail environment applying clienteling, cross-selling and relationship-building techniques
- Achieved an average daily sales value of €12,000 while delivering personalized client experiences
- Built and managed a personal client portfolio, generating repeat visits and strengthening long-term client relationships
- Served international clients from five continents in English, French and Arabic

PROJECT WORK

Consulting Strategy (Apple) – SKEMA Business School *Sep 2025 – Jan 2026*

- Developed a production diversification strategy across India, Vietnam and the United States, reducing exposure to China-related tariffs and taxes by 30% while maintaining annual iPhone launch requirements

New product line and go-to-market project (L'Oréal) – SKEMA Business School *Sep 2023 – Jan 2024*

- Developed a go-to-market strategy for a men's skincare retail company through business planning, market and competitive analysis

Business Development Simulation (Formula 1) – SKEMA Business School *Sep 2022 – Jan 2023*

- Developed a revenue growth strategy using the BCG Matrix, identifying opportunities across partnerships, new revenue streams, M&A and market expansion contributing to a projected 25% increase in revenue
